

PTP LICENSE

WR-ZEN Family

PTP License for White Rabbit ZEN Family

It is the package that unleashes the full potential of the WR to PTP interoperability in WR ZEN family devices. The PTP license allows you to unlock the possibility of configuring relevant PTP parameters such as the PTP messages ratios for the announce, sync and delay request packets.

Besides, it allows to unlock the necessary options to configure other profiles than the default such as telecom profiles ITU-T G.8265.1, G.8275.1 and power profiles C37.238-2011/2017 and IEEE/IEC 61850-9-3.

Safran Electronics & Defense is with you every step of the way, building in the intelligence that gives you a critical advantage in observation, decision-making and guidance.
